

BIOSCIENCES
UNIVERSITY OF MICHIGAN

VIRTUAL SYMPOSIUM

SARS-COV-2 and COVID19

June 24th and June 25th, 2020

Hosted in partnership with U-M Office of Research

As part of the University's COVID-19 response, the Biosciences Initiative has established a new Michigan Center for Infectious Disease Threats (MCIDT), dedicated to improving local and global health through research on infectious disease threats and building capacity to respond to novel threats as they emerge.

BSI and MCIDT are hosting a virtual symposium to educate the UM community of researchers and to create opportunities for collaboration and synergy.

Explore the breadth and depth of research at the University of Michigan centered around SARS-CoV-2 and COVID19, in response to the pandemic.

Hear from representatives on research topics on:

Day 1: Virology and Pathogenesis, Testing and NPI, Transmission and Spread

Day 2: Immunology and Vaccines, Host Factors, Global Health and Epi & Policy

Detailed schedule:
